About Me

Bachelor of Science in Computer Science graduate with hands-on experience in data analytics using Python, R, Excel, Power BI, Tableau, and SQL to clean, analyze, and visualize data. Skilled in applying statistical techniques such as T-tests and ANOVA to support data-informed decision-making.

Experience

Future Interns

Dec 2025 - Jan 2026

Data Science & Analytics Intern

Remote

- Completed data science assignments using Python and MySQL, delivering insights aligned with program objectives.
- Applied statistical testing and problem-solving techniques to real-world datasets, producing clear insights for project stakeholders.
- Delivered assigned projects on schedule while upholding professional standards and clear communication.
- Conducted Exploratory Data Analysis (EDA) using Python on customer service ticket datasets to identify performance trends.
- Developed interactive Tableau & Power BI dashboards to support data-driven decision-making processes.

Erudite Digital

Jul 2024 - Dec 2025

Graphic Designer

Nairobi

- Redesigned the company website to enhance visual identity and improve overall user experience (UI/UX).
- Collaborated with cross-functional teams to deliver digital designs aligned with organizational goals.

Boostica Limited

May 2024 - Aug 2024

Graphic Design and Web Development

Nairobi

- Used A/B testing and Python analysis to optimize landing pages and improve user engagement.
- Managed MySQL databases using SQL queries to streamline reporting and content updates.
- Implemented branding strategies that improved consistency across social media platforms.

Projects

Customer Support Ticket Analysis

- Engineered an NLP-based Urgency Intelligence System using Sentence-Transformers and XGBoost to re-prioritize 5,700+ backlog tickets with **99.6% accuracy**, utilizing sentiment analysis and statistical complexity metrics to optimize support triage.

Personality Traits Analysis - Strathmore University

- Analyzed personality datasets using Python, applying statistical tests (T-test, ANOVA) to generate insights.

Student Zone

- Developed an AI-powered educational platform using Next.js and Firebase for automated document analysis.

Subscription Management System

- Built a decentralized application using React.js and Solidity for automated subscription payments with real-time wallet integration.

Skills

- **Data Analytics & Statistics:** Python (Pandas, NumPy, Matplotlib, Seaborn), R, SQL, Statistical Testing (T-tests, ANOVA), Machine Learning
- **Data Visualization:** Power BI, Tableau, Microsoft Excel
- **Software & Development Tools:** JavaScript, TypeScript, C#, React.js, Next.js, Firebase, MySQL
- **Version Control:** GitHub, Git
- **Soft Skills:** Analytical Thinking, Problem-Solving, Communication, Time Management, Collaboration
- **Design Tools:** Adobe Illustrator, Canva

Education

GOMYCODE

Jan 2026 - Present

Certificate, Data Science

Strathmore University

Jul 2025 - Aug 2025

Certificate, Data Analytics & Visualization

Catholic University of Eastern Africa

2021 - 2025

Bachelor of Science, Computer Science

Light Academy Boys

2017 - 2020

Kenya Certificate of Secondary Education
